

TOP LOC 032023 SIP-IP DECT Advanced Training

This course serves as a refresher and specialisation course for experienced MX-ONE specialists. Existing knowledge is bundled in the course and expanded with deep technical insights in order to be able to solve problems in the field faster and more targeted.

Target Group

MX-ONE specialists at Mitel partners in the technical field with several years of experience in this environment.

Requirements

The student should have active experience on the MiVoice MX-ONE.

Methods

Remote Leader Led/RLL: Virtual classroom environment

Equipment and Setup Requirements:

If several participants attend from the same remote location, they can share the same equipment.

- | Min 3x SIP-DECT Base Stations (RFP4X)
